

FRIDAY STOWE EARLY LEARNING CENTER-HEAD START UPDATE

As we promised, we would keep you updated with information regarding the upcoming changes that will be taking place at Stowe in the upcoming weeks. We are committed to providing information as it becomes available in the form of a Friday update that will be posted on both the Town and School websites.

PARKING:

- The Director of Public Works has identified 77 existing parking spots and identified space for 106 additional spots. This information will be presented during the June 3rd Town Council meeting.

CO-LOCATION OF PROGRAMS beginning SY 2019-2020:

- ECDC Before and After School Age programming will be restructured and locations have been identified for possible sharing:
 - Gym
 - Play Lab
 - Family Resource Center
 - Conference Rooms
 - Classrooms
- The team is working on ensuring that each area meets licensing requirements (temperature, bathroom access, square footage per group, etc.), investigating which activities best suit each area and age group, and is currently putting together a committee to visit other B/A programming to get ideas for enhancing the existing program during this transition.

As always, please reach out to either one of us with questions or concerns as we continue to create a high-quality environment for our children.

Best,

Karen Edelson
Early Care and Education Program Manager

Jaelyn Valley
Interim Director, Enfield Head Start
PK STEAM Academy Coordinator
