STANDARDS AND SUBMISSION REQUIREMENTS

Applications must be accompanied by the following:

A sketch or modified site plan/survey of the property and written narrative outlining the proposed or modified dining or retail facilities. Contact the Building Department to determine if a survey is available. If a survey is not available, the applicant can provide a site plan on a printout of the property obtained from the Town's GIS mapping. Click the following link: [GIS Mapping](#).

1. Applications will be accepted via mail, email, and ViewPermit (Apply for a Site Plan Approval with note "COVID 19")
2. The required survey/site plan must illustrate:
 - a. The location of any tables, tents, waitstaff stations, waste receptacles, site lighting, or any applicable furniture associated with the operation.
 - b. An outline of the maximum area, including scaled dimensions, to be used for the operation.
 - c. The path to be used by waitstaff for service to and from the kitchen must be safe and obstruction free.
 - d. The survey/site plan must be drawn to scale. Failure to do so will impact staff's ability to assess the operation and may result in delays.
 - e. Plans must be reviewed with respect to potential impact to adjacent property owners. If deemed appropriate, temporary fencing may be required by staff.
3. The application must include a narrative outlining all operations including:
 - a. Employee training and preparation.
 - b. Implementation of safety measures, particularly where dining in active parking lots is requested.
 - c. Privacy measures taken to minimize disturbance (if any) to abutting uses.
 - d. Hours of operation.
 - e. Please see Re-Open CT State Guidelines for Re-Opening Retail and Dining at: https://www.enfield-ct.gov/DocumentCenter/View/15998/CTReopens_Restaurants_C5_V1?bidId=
4. In addition to the safety risks anticipated from the current pandemic, the Town of Enfield is aware of risks imposed on patrons from vehicular traffic. If area is lacking to provide outdoor dining service on existing patios, decks (or lawns if permitted by the North Central Health District), the use of a portion of the parking area may be considered. Understanding the inherent concerns of using a parking area for dining, and with due consideration to the loss of parking spaces, the following considerations must be addressed:
 - a. A plan to ensure the safety of patrons including, but not limited to adequate protection from vehicular intrusion into the outdoor dining area.
 - b. If parking is shared, consideration of other business owners should be part of the plan to prevent adversely affecting another business owner.
 - c. The means by which this is accomplished must be shown on the site plan. All reasonable efforts shall be made to protect the outdoor patrons from a moving vehicle.
 - d. Adequate emergency vehicle access must be considered for the outdoor dining area as well as nearby businesses.
5. Applications involving the use of tents must also be reviewed by the Building Official and Fire Marshal. You are urged to contact them before applying to ensure that appropriate supporting materials are included with your application submittal. **NOTE:** Tents shall not be used when winds are anticipated to exceed 35 miles per hour.
6. Applications will be reviewed by the North Central Health District, and the Enfield Building Official, Fire Marshal, Police/Local Traffic Authority and Planning Division. Please contact them before submitting this application to help avoid delays.
7. Filing Fee: There shall be no filing fee for this application.
