Re: Notice of Sale of Equivalent Nitrogen Credits

Dear Sir or Madam:

The Department of Energy and Environmental Protection in consultation with the Nitrogen Credit Advisory Board established the annual value of an equivalent nitrogen credit of \$6.47 for the calendar year 2014. This value was derived as specified in Connecticut General Statutes 22a-524 by dividing the total annual project cost for nitrogen removal projects at Connecticut sewage treatment facilities by the reduction in equivalent pounds of nitrogen achieved. Your facility removed nitrogen to a level that is below the required level established in the General Permit. Therefore, your facility benefits from the sale of equivalent nitrogen credits that have been generated. The amount for the nitrogen credits sold by the Town of Enfield for 2014 is \$11,217 (please see enclosed invoice). Monies have been transferred electronically.

As a reminder to all Water Pollution Control Authorities receiving funds from the sale of nitrogen credits through the Nitrogen Trading Exchange Program, Connecticut General Statutes 7-267 describes the separate accounting and use of funds from the use of the sewerage system. It is the Department's position that these funds are to remain with and be utilized by the Water Pollution Control Authority to benefit the operation, maintenance and improvement of the water pollution control facilities of your municipality.

The Department and Nitrogen Credit Advisory Board congratulate you on a successful year in the operation of your facility in removing nitrogen. Continued operation of your facility for high levels of nitrogen removal will help in achieving the long-term goals for Long Island Sound.

Should you have any questions regarding the use of funds from the sale of credits or believe there is an error in your check or electronic transfer, please contact Iliana Raffa of the Department's Bureau of Water Protection and Land Reuse at 860-424-3758 or email her at ([Iliana.raffa@ct.gov](mailto:Iliana.raffa@ct.gov)).

Sincerely,

A handwritten signature in cursive script, appearing to read "Betsey Wingfield".

Betsey Wingfield  
Bureau Chief  
Bureau of Water Protection and Land Reuse
