

Delinquent Real Estate Accounts Web Page Information Sheet

Overview

A web page has been posted to the [Town web site](#) listing delinquent real estate accounts by name for the past fifteen years. The web page includes the name, grand list year, property description, and tax amount due for each account. A printer-friendly version is available.

The Delinquent Real Estate Accounts web page serves the public interest with information automatically updated from the Town Tax System.

The project required direction from the Finance Department and Office of the Town Manager. The IT Department provided project coordination, security oversight, and analysis, development and design of the web report to ensure data integrity and accurate presentation.
