

Dear Mr. Lewis Fiore,

As a Felician Sister and member of the former Provincial Leadership Team for North America, I am writing to request your support for the re-zoning of the property on 1315 Enfield Street in Enfield, CT.

The Felician Sisters have been present, serving the people of Enfield, for many years. Following the example of our foundress, Blessed Mary Angela, the Sisters have served where they are needed primarily in education, senior day care and recently in senior housing. Now, discerning the needs of the times, the Sisters can expand their ministry by providing affordable housing in the Enfield area. With the Enfield Montessori School already on the property as well as senior housing, the property would be an intergenerational campus. This would continue to remain under the supervision of our religious community.

The Sisters living on the campus have given their support and blessing of these plans. The Enfield Montessori School leaders have helped in the design of the plan in order to assure the safety and interests of the students and faculty. Those living in the senior housing on the property also support the campus plan and look forward to services that may be available to them.

The goal of this campus plan for the Felician Sisters is to respond to the needs of the time continuing the legacy of service which first brought the Sisters to Enfield. At this time, we anticipate a vote by the Enfield Town Board that will allow for rezoning our property.

Sincerely,

SM Geralyn Mroczkowski, CSSF
