

# Mad Science Workshop

*Detective Science with Spy Academy*  
Ages 8 - 12 years old

Children are introduced to the science techniques used to investigate and analyze crime scene evidence. The children begin their training by observing a fictional crime scene. Their inquiry continues with a mystery powder analysis, fingerprint examination, ink separation investigation, and teeth impression match-up. They create a composite of a perpetrator from memory and then analyze all the evidence to determine which suspect committed the crime. Participants should bring a snack, pen and a water bottle. Due to the prevalence of allergies, this is a nut-free program. Additionally, participants are encouraged to wear clothes they don't mind getting messy. **Limit: 14.**

**Date:** Tuesday, November 8, 2022 (Election Day, No School)

**Time:** 9:00 AM - 12:00 PM

**Location:** Enfield Annex, 124 North Maple Street

**Fee:** \$50.00 Residents / \$62.50 Non-Residents
